# Macrium Reflect Portable

once you have enabled the trial of macrium site manager you can use the knowledge that you build up in your learning stage to examine what it takes to automate backups. you can also configure the settings so that site manager automatically backs up a particular file or folder to a particular remote location. this will automatically allow you to set up a schedule to perform the backup of your data, and remotely allow you to connect to the macrium agents that are running on the computers that you backup and restore. with site manager you can also test restore scenarios before you decide to go ahead and restore a full backup. macrium reflect's backup and restore engine will also allow you to generate a bootable digital disk that you can load directly on a computer to restore a backup. if you decide to upgrade the version of macrium reflect that you have installed, you can do this without losing the license. macrium reflect for mac has had a few minor updates. one of the things that is new is that macrium reflect for mac now gives you the option to automatically back up to icloud and to windows server. this is a great feature as it allows you to back up your mac to an icloud or windows server account. this also means that you can then remotely restore the data that you backup, so you no longer have to physically connect to the mac that you are backing up. another new feature is the ability to encrypt the backup file that you are backing up to windows server. macrium reflect for windows has had a few updates. the latest version now includes a number of bug fixes, along with the ability to create restore points to allow you to rollback to a previous backup. it has also had a few new features added.

---

## Macrium Reflect Portable

one of the advantages of using macrium reflect is that you don't need to install any additional software - you can start using macrium reflect right away, without having to open the program for the first time. macrium reflect is a backup application that will make creating backups and

---

scheduling them simple and easy to handle. in addition to that, the program is able to create backups of entire computer partitions or just selected files and folders. in case you want to recover one of these backup files, macrium reflect will be able to help you with that as well. you can also recover backups of your partitions or file,

---

and you can also start with a complete operating system. what's more, macrium reflect offers a lot of other useful functions such as restore point creation, information retention of log files, and the ability to send scheduled backups to other computers or cloud storage services. the application will allow you to create compressed

---

backup files, which are stored in the macrium reflect backup directory. these files can be mounted and used to restore your computer in the case that it will be needed. after restoring, you will be able to resume work as usual. another great advantage of macrium reflect is that you don't need to install any additional software on

---

your computer to use it.  
all you need to do is  
launch the program and  
follow the instructions.  
installation and  
configuration of macrium  
reflect is very easy and  
fast. also, macrium reflect  
is very easy to handle. in  
addition to that, macrium  
reflect comes with a  
comprehensive help guide  
and video tutorials that  
will make you familiar with

---

the program. so, what are  
you waiting for, download  
macrium reflect and  
create a customized  
backup in no time!
